## Management Discussion of Fund Performance

### Investment Objective and Strategies

The objective of the Ninepoint Cannabis & Alternative Health Fund (the “Fund”) is to achieve growth by investing primarily in equity securities of companies engaged in nutrition, nutraceuticals and new forms of medicines and pharmaceutical solutions, including cannabis.

The Fund will primarily invest in a portfolio of companies that are listed on the North American exchanges that have a business strategy focused on new and alternative health and wellness related themes that are growing in acceptance and importance in North America.

As part of the investment strategy, the Fund may:

- hold cash, short-term money market instruments, fixed income securities or other equivalents at any time, including, in accordance with National Instrument 81-102, other investment funds managed by Ninepoint Partners LP (the “Manager”) that invest all or substantially all of their assets in cash or cash equivalents, for cash management purposes;
- engage in securities lending as permitted by securities regulations;
- invest in other exchange-traded funds (“ETFs”) as permitted by securities regulations;
- pursuant to the regulatory relief to invest in leveraged and commodity ETFs, invest in Commodity ETFs in aggregate, and up to 10% of its net assets in underlying ETFs as measured at the time of the investment provided certain criteria are met;
- invest in Underlying U.S. ETFs (as defined in the simplified prospectus) subject to terms of the regulatory relief;
- engage in short selling in a manner which is consistent with the investment objectives of the Fund and as permitted by securities regulations; and
- use derivatives instruments such as options, futures, forward contracts and swaps, for both hedging and non-hedging strategies, in a manner that is consistent with the investment objectives of the Fund and as permitted by securities regulations.

On April 24, 2018, the Manager acquired the management rights for the Fund from Redwood Asset Management Inc. Information prior to the acquisition by the Manager is presented in this report, as required.

Faircourt Asset Management Inc. is the sub-advisor of the Fund.

### Risks

The risks of investing in the Fund are described in the Fund’s simplified prospectus. The Fund is suitable for investors with a high tolerance for risk.

### Results of Operations

The Fund, Series F, returned -0.5% in the first half of 2026, while its blended benchmark returned 10.7%.

First half of 2026 was a muted period for the Fund as the U.S. cannabis sector suffered from investor apathy and a lack of resolve when it came to U.S. regulatory change. U.S. President Trump had promoted re-scheduling cannabis to a Schedule 1 drug however there have been no further advances either from the Drug Enforcement Agency (“DEA”) or U.S. Department of Justice.

U.S. health care had early optimism in Q1 2026, however as growth was a key focus of investment capital, health care stocks have only generated moderate returns.

The Fund benefitted from strong performance in its biotech position, TXG generating first half return of 135%. 10x Genomics, Inc. designs and manufactures sequencing technologies for use in scientific research, with a focus on product development for single-cell and spatial omics. From the cannabis side, leading performance was seen in our medical cannabis focus with other strong performance on the health care side of the portfolio was seen from Johnson & Johnson up 24.1% by the end of H1 2026.

On the cannabis side of the portfolio, two positions generated strong outperformance including Glass House Brands Inc. up 39.9% by the end of H1 2026 with its low cost and large-scale advantages in California. Also noteworthy was the Fund’s performance in Trulieve Cannabis Corporation up 13.1% for the first half of 2026. Trulieve Cannabis Corporation continues to have the market leading position in the largest medical market in the state of Florida and recently listed on the NYSE with the change in federal legislation to allow medical cannabis more latitude from a regulatory perspective. The Fund had negative performance from select larger holdings including Abbott Laboratories (-26.8%), Microsoft Corporation (-22.5%) and Eupraxia Pharmaceuticals Inc. (-9.8%).

## Recent Developments

The Manager actively monitors the positioning of the Fund's portfolio for changes in current market conditions and the economic environment.

1 This information is provided as at June 30, 2026 and December 31 for the years shown prior to 2026.

2 Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of the daily average net asset value during the period. The Manager may waive or absorb a portion of the operating expenses of the Fund. Waivers and absorption can be terminated at any time.

3 The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period. The TER includes securities borrowing expense paid by the Fund in connection with securities sold short, if any.

4 The Fund's portfolio turnover rate indicates how actively the Fund's Portfolio Manager trades its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Fund.

5 Last closing price as at December 31 for the years shown prior to 2026.

6 As at December 31, 2025, the transactional net asset value per unit for Series A was \$9.42, Series D was \$6.56, and Series F was \$10.17.

7 As at June 30, 2026, the transactional net asset value per unit for Series A was \$9.32, Series D was \$10.12 and Series F was \$6.53.

Please note that past performance is not indicative of future performance. All rates of return are calculated based on the Net Asset Value of the particular Series of the Fund.
