WHY INVEST IN NINEPOINT HIGHSHARES?

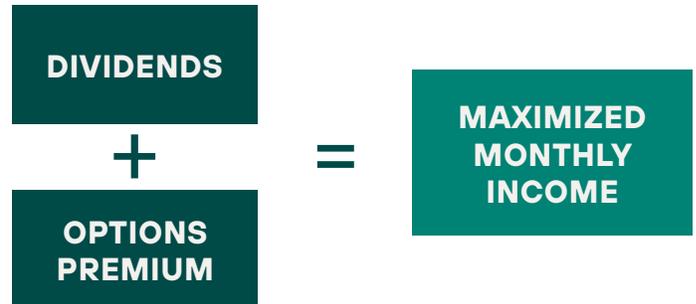

1 Direct Exposure to Iconic Canadian Companies*

An opportunity to participate in the growth of Canadian blue-chip companies from banks and energy to infrastructure and tech through the single-stock HighShares ETFs.

2 Potential for Higher Monthly Income from Covered Calls + Dividends

HighShare ETFs combine regular dividends with option premiums from a covered-call strategy, aiming to potentially maximize monthly income.

3 Up to 25% Leverage to Boost Yield Potential

Easy access to leverage that could enhance return potential without the complexity of margin accounts. A modest use of leverage increases exposure to the underlying stock, boosting distribution potential while maintaining a disciplined risk approach.

How Ninepoint HighShares ETFs Work

With an active covered call approach, Ninepoint HighShares aims to deliver high monthly income by investing in some of Canada's most recognized and widely held companies, striving to provide investors with consistent cash flow from names they know and trust.

**The ETFs do not have a fixed distribution amount. The amount of monthly distributions may fluctuate monthly, quarterly or annually, as applicable, and there can be no assurance that the ETFs will make any distribution in any particular period or periods. The amount of ordinary cash distributions, if any, will be based on the Manager's assessment of the prevailing market conditions. The amount of distributions may vary if there are changes in any of the factors that affect the net cash flow on the portfolio of an ETF, including the amount of leverage employed by the ETFs. The amount and date of any ordinary cash distributions of the ETFs will be announced in advance by issuance of a press release. Subject to compliance with the investment objectives of the ETFs, the Manager may, in its complete discretion, change the frequency of these distributions and any such change will be announced by press release. Each ETF intends to pay monthly distributions based on its ability to generate monthly cash flows from writing covered call options and any dividends received on the Portfolio Securities held in such ETF's portfolio, as applicable. The Manager will review the level of distributions for each ETF on a quarterly basis to consider the sustainability of such distributions.
