WHY THIS FUND

1 Diversification Across Global Markets

Exposure to various countries, industries, and currencies reduces risk associated with single-region or single-sector concentration.

2 Income Stability and Predictability

Investments focus on financially stable, mature companies with consistent dividend payouts, providing reliable income streams.

3 Potential for Capital Appreciation

Investing in financially strong dividend-paying companies also provides opportunities for long-term capital growth alongside income generation.

¹All returns and fund details are a) based on Series F shares; b) net of fees; c) annualized if period is greater than one year; d) as at May 31, 2025.

Where applicable, all figures are annualized and based on monthly returns since inception. Risk-free rate and minimum acceptable rate calculated using rolling 90-day CDN T-bill rate. The rate of return or mathematical table shown is used only to illustrate the effects of the compound growth rate and is not intended to reflect future values of the mutual fund or returns on investment in the mutual fund. Top ten holdings, sector allocation and geographic allocation as at May 31, 2025. Top ten holdings based on % of net asset value. Sector allocation based on % of net asset value. Geographic allocation based on % of net asset value and excludes cash. Numbers may not add up due to rounding. Cash and cash equivalents include non-portfolio assets and/or liabilities.

The rate of return is used only to illustrate the effects of the compound growth rate and is not intended to reflect future values of the investment fund or returns on investment in the investment fund.

The monthly distribution amount may be adjusted by the Manager without notice throughout the year as market conditions change. Monthly distributions will be comprised of net income, net realized capital gains and/or return of capital. Any net income and/or net realized capital gains earned by the Fund in excess of the monthly distribution will be distributed to unitholders annually in December.

Morningstar Ranking/Number of Funds in Category displays the Fund's actual rank within its Morningstar Category based on average annual total return and number of funds in that Category. The ranking is subject to change every month.

The Morningstar Risk Adjusted Return (MRARs), commonly referred to as the Star Rating, relate the risk-adjusted performance of a fund to its peers with the same CIFS Fund category for the period ended as noted and are subject to change monthly. Morningstar calculates ratings for categories with at least 5 funds. To determine a fund's rating, the fund and its peer are ranked by their MRARs. If a fund scores in the top 10% of its category, it receives five stars (High); if it falls in the next 22.5%, it receives four stars (Above Average); the next 35% earns a fund three stars (Neutral or Average); those in the next 22.5% received two stars (Below Average); and the lowest 10% received one star (Low). The overall rating is a weighted combination of the 3, 5 and 10 year ratings. For greater detail, see morningstar.ca.
