## WHY THIS FUND

### 1 Trade on Global Trends

A highly liquid way to take advantage of global macroeconomic and financial trends.

### 2 True Diversifier

Historically, similar strategies have exhibited a low correlation to other major assets classes.

### 3 Systematic

Statistical, model-based approach that combines new and historical data to predict future currency movements.

### 4 Adaptive

Actual returns are compared to forecast returns at the end of each trading day to determine, for the next day, the appropriate weight of each factor used in the model.

## FUND OBJECTIVE

The investment objective of Ninepoint Global Macro Fund (formerly FX Strategy Fund) is to generate long term total returns by investing globally in FX futures on a long/short basis. To achieve the investment objective, the Sub-Adviser will utilize several investment trading methodologies collectively known as the "FX Strategy", at the standard level of risk to invest in foreign currency futures utilizing a Bayesian statistical model to identify current drivers of currency returns. The Fund will use derivatives, which may introduce leverage into the Fund. The Fund may also borrow cash and sell securities short. The Fund's maximum aggregate exposure to short selling, cash borrowing and derivatives used for leverage must not exceed 300% of the Fund's net asset value, calculated on a daily basis.
