## WHY THIS FUND

### 1 Ideal Complement to Physical Bullion Investments

For investors already holding physical silver, adding a silver equities fund can enhance portfolio diversification, providing exposure to additional return drivers and improving overall portfolio efficiency.

### 2 Improved Risk-Adjusted Returns

Combining silver bullion with silver equities has historically demonstrated the potential to generate superior risk-adjusted returns over the long term, balancing volatility and opportunity across market cycles.

### 3 Access to Extensive Industry Relationships

Leveraging established relationships with hundreds of precious metals companies, particularly in Toronto—the recognized global mining-finance capital—enables the fund to identify attractive investment opportunities and participate actively in market-leading transactions.
