3 Up to 33% Leverage to Boost Yield Potential

Easy access to leverage that could enhance return potential without the complexity of margin accounts. A modest use of leverage increases exposure to the underlying stock, boosting distribution potential while maintaining a disciplined risk approach.

How Ninepoint HighShares ETFs Work

With an active covered call approach, Ninepoint HighShares aims to deliver high monthly income by investing in some of the most recognized and widely held companies, providing investors with consistent cash flow from names they know and trust.

Why SpaceX Matters

SpaceX sits at the intersection of several powerful long-term themes, including lower-cost access to space, satellite connectivity, secure communications and next-generation space infrastructure. With one of the world's most active launch platforms and Starlink's expanding global broadband network, SpaceX is helping shape how governments, businesses and consumers access and use space-based technology.

- **Launch Leadership:** SpaceX accounted for roughly half of global orbital launches in 2025, highlighting the scale of its launch platform and the demand for its reusable rocket technology.
- **Recurring Revenue Potential:** Starlink added more than 4.6 million active customers in 2025, demonstrating expansion beyond launch services into global satellite broadband.
- **Strategic Infrastructure:** SpaceX supports government, enterprise and communications infrastructure globally, reflecting the growing importance of space-based networks for connectivity and secure communications.
- **Next-gen Space Economy:** SpaceX spans launch, broadband and lunar exploration—covering the core verticals of the emerging commercial space economy.

FUND OBJECTIVE

Ninepoint SpaceX HighShares ETF seeks to provide securityholders with (i) long-term capital appreciation through purchasing and holding, on a levered basis, Class A common stock of SpaceX and (ii) high monthly cash distributions.

**‡The ETFs do not have a fixed distribution amount. The amount of monthly distributions may fluctuate monthly, quarterly or annually, as applicable, and there can be no assurance that the ETFs will make any distribution in any particular period or periods. The amount of ordinary cash distributions, if any, will be based on the Manager's assessment of the prevailing market conditions. The amount of distributions may vary if there are changes in any of the factors that affect the net cash flow on the portfolio of an ETF, including the amount of leverage employed by the ETFs. The amount and date of any ordinary cash distributions of the ETFs will be announced in advance by issuance of a press release. Subject to compliance with the investment objectives of the ETFs, the Manager may, in its complete discretion, change the frequency of these distributions and any such change will be announced by press release. Each ETF intends to pay monthly distributions based on its ability to generate monthly cash flows from writing covered call options and any dividends received on the Portfolio Securities held in such ETF's portfolio, as applicable. The Manager will review the level of distributions for each ETF on a quarterly basis to consider the sustainability of such distributions.
